RACE: WH AA AS OR AI/ALN ETHNICITY NON-HISPANIC HISPANIC GENDER MALE FEMALE

This application is accepted subject to the availability of the system's capacity to furnish water to the applicant at the address given above. By your signature below you acknowledge receiving a copy of the Bylaws and Rules and Regulations of Auburn Water System, Inc. As a member you become a part owner of the Corporation and your signature below is accepted as your agreement to abide by both the Rules and Regulations and Bylaws as published and as may be amended from time to time.

MEMBERSHIP: Each water user must be a member. A membership fee of five (\$5.00) dollars must be paid by the applicant which will only be refunded by surrendering the original membership certificate at the offices of Auburn Water.

DEPOSIT: The customer must pay a seventy five (\$75.00) dollar deposit which will be held in escrow. Customers maintaining a good credit record with Auburn Water System will be able to transfer their deposit to a different location on the system if necessary. The deposit will be refunded upon termination of service provided no indebtedness is pending.

SERVICE CONNECTION CHARGE: A minimum service connection charge of three thousand and fifty dollars must be paid by the applicant prior to the installation of new service. The service box will be placed at the applicant's property line in the easement of the road. The applicant must install the line from the box to the residence at no additional cost to the water system.

SPRINKLER SYSTEMS: A regular residential 5/8" meter and a 3/4" line is not adequate for a sprinkler system. It is recommended that you use a 1" meter and a 1" line. A Double Check Above Ground Backflow is required for a sprinkler system. An R. P. Z. Above Ground Backflow is required for commercial services or properties with auxiliary water supplies. Above Ground Backflow Devices must be tested annually. There is a \$ 35.00 charge for this test. Auburn Water System reserves the right to inspect all new installations, any questionable situations, and a systematic surveillance of all existing installations.

OTHER CHARGES: A \$35.00 connection fee is charged at the time the water meter is either turned on or read. This includes reconnection for non-payment or temporary disconnection. There is a published Fee schedule for all returned checks.

****NOTICE:** A meter box on your property does not guarantee a water service.

I understand Auburn bills and collects for both potable water and sewer service regardless of the provider as of February 10, 1997 and thereafter. I further understand that Auburn has the right to cut my water off for non-payment of either water or sewer service charges.
